

# Final Report

## Experiential Learning Programme (ELP)

Conducted at: Akashvani, Bhopal

Duration: 120 Hours

Batch: I – Phase II

Trainee: Kishor Kumar Shriwas

---

### 1. Introduction

Broadcasting is more than speaking into a microphone—it is the art of storytelling through sound, of connecting communities, and capturing culture through voice. As part of the 120-hour Experiential Learning Programme (ELP) held at Akashvani Bhopal, I had the opportunity to dive deep into the world of radio journalism, content creation, technical production, and public service broadcasting. This report encapsulates my transformative journey as a trainee, detailing the skills I acquired, the challenges I overcame, and the knowledge I now carry forward.

---

### 2. Programme Objective

The primary aim of this programme was to bridge the gap between academic knowledge and industry practice in the field of broadcasting. Organized under the Ministry of Youth Affairs & Sports, Government of India, and supported by the National Academy of Broadcasting and Multimedia (NABM), Delhi, the programme was designed to impart hands-on experience in radio programme production, presentation, editing, OB coverage, and digital content development.

---

### 3. Programme Overview

- **Start Date:** 15 April 2025
- **Venue:** Akashvani Bhopal
- **Duration:** 120 Hours
- **Medium:** Bilingual (Hindi & English)
- **Guiding Institutions:** NABM Delhi & Ministry of Youth Affairs and Sports

The training began with a formal inauguration featuring esteemed dignitaries including Shri Narendra Shivaji Patel (Public Health Minister, MP) and Dr. L. Murugan (Union Minister of State, Information & Broadcasting). Technical orientation sessions were led by Shri Yashwant Chivande, Shri Rajesh Bhatt, and other broadcasting professionals. This inaugural phase not only set the tone for the training but also instilled a sense of pride and responsibility among all the participants.

---

#### 4. Training Modules Covered

- Voice Culture & Pronunciation
- News Reporting and Anchoring
- Radio Drama and Feature Production
- Live OB Coverage and Studio Recording
- Sports Production
- Digital Content Creation
- Social Media and Podcasting
- Interviewing Skills
- Technical Studio Handling
- Public Speaking and Teamwork

Each module was covered with a balance of theoretical inputs and practical assignments.

---

#### 5. Key Event-Based Learning Experiences

- **International Yoga Day OB Coverage:** Contributed as a field anchor, conducted guest interviews, and coordinated with the studio team during the live broadcast of a yoga event based on the theme *"One Earth, One Health."*
- **Live Panel Discussion:** Participated as a youth representative in a live social discourse titled *"Why Are Today's Youth Becoming Violent?"* with responsibilities including real-time anchoring, response framing, and script planning.
- **Podcast Production – "Rediscovering Bhopal":** Took part in scripting, editing, field shooting, guest coordination, and publishing. The podcast was released on multiple platforms including NewsOnAir, YouTube, and Instagram.
- **Audio Drama – "Kowa.com":** Played the lead role in a satirical Hindi audio drama reflecting on modern matrimonial practices. Also assisted with studio recording, mic handling, and voice modulation.
- **Poetic Tribute – "Shabdanjaali":** Supported the production team by managing camera operations and sound editing during a patriotic literary event honoring the Indian Armed Forces, featuring esteemed poets.

---

#### 6. Tools & Software Used

- Editing Tools: Sound Forge, VN Editor, CapCut, Adobe Clipchamp, Microsoft Clipchamp
- Broadcast Software: Netia (for audio scheduling and playout)
- Studio Equipment: Noise-cancellation microphones, condenser mics, soundproof consoles, field recorders

- Design Tools: Canva (for podcast posters and visual assets)
- 

## 7. My Roles & Responsibilities

- Anchored live and recorded sessions
  - Scripted interviews and podcast dialogue
  - Recorded and edited audio content
  - Handled field coordination and camera setup
  - Participated in public discussions and hosted educational features
- 

## 8. Challenges & Solutions

- **Challenge:** Time-sensitive OB recordings and editing deadlines
  - **Solution:** Developed faster editing workflows and maintained pre-planned schedules
  - **Challenge:** Handling nervousness during live anchoring
  - **Solution:** Applied voice modulation techniques and mock rehearsals
  - **Challenge:** Adapting to technical studio equipment
  - **Solution:** Learned from engineers, practiced under supervision
- 

## 9. Skills & Experience Gained

- ✓ Real-world exposure to broadcasting
  - ✓ Confidence in anchoring and public speaking
  - ✓ Ability to handle interviews with professionals
  - ✓ Mastery in editing audio, scripting, and teamwork
  - ✓ Awareness of cultural sensitivity in media
- 

## 10. Conclusion

This 120-hour journey at Akashvani Bhopal has not only been a professional stepping stone but a transformative personal experience. It offered me insights into India's public broadcasting legacy and provided a platform to learn, perform, and grow. As I step out with confidence and a new set of skills, I carry with me the inspiration to contribute meaningfully to the media industry.
